My Visual Listings provides you with some great *Home Tour Packages* and all the tools you need when it comes to marketing yourself, your business and your properties online. We have a complete system that makes it easy for you to market your properties from start to finish and make you look like a savvy online marketing expert. Inside this brochure is a list of great tools that we provide you with that will drastically increase exposure to your listings. With 80% of home buyers now starting their search online you need a great online presentation of your listings! We put online visitors virtually *Inside* the property! These tours are a built-in *Listing Tool* that can dramatically increase exposure to your client's listings. This incredible technology is called *Virtual Reality* and absolutely nothing can give visitors a better, more realistic view of your listings. These breathtaking panoramas will make a dazzling first impression, and ensure your name and unique marketing capabilities are unforgettable.

MVL *Exclusive Marketing Tools*™

"Finally, someone has come up with Virtual tours at an affordable price. With over 80% of home buyers starting their search for available homes online, I feel it is my obligation as a real estate professional to provide the best possible online presentation of all my client's property listings and My Visual Listings does just that ... and more"

Janice Mathews

Downloadable CD's & Labels

Just one more reason My Visual Listings is fast becoming the virtual tour provider of choice. We provide all of our Virtual Tour Members with 3 different FREE downloadable versions of each and every tour so that they can create a CD presentation for marketing, attracting listings, and as gifts for the sellers.
You can also download CD labels in 3 different designs based on your personal preference and needs

Print & Email Flyer Software

We are the only Virtual Tour Company who offers a complete property flyer software program FREE to all our members. Our Real Estate Members can now create flyers in minutes with our exclusive flyer software. Never has there been an easier and more affordable way to create, print and email your property flyer than with our exclusive MVL Print & Email Property Flyer software.

24 Hour Guarantee

Another great reason why My Visual Listings is leading the pack in the virtual tour race is that we can offer something that others can not. Guaranteed 24 hour turn around time. When you get a listing call us and we can capture your listing the next day. From that point you can expect your tour to be fully operational and available to you in 24 hours. Saturday tours will be ready for you by the following Monday morning.

Traffic Tracking

We offer a virtual tour tracking button that you can simply click on to find out exactly how many online visitors your tour has. We also realize you are busy selling Real Estate and that is why we have created a Email program that sends you a web link that allows you to view all your Virtual Tour Listings and see your traffic along with updating your active and sold status for our network websites.

Today's Visits	This Month's Visits	Total Visits
1 visits	11 visits	1561 visits

Visits last 6 month(s)

Month	Visits	Daily average
November 2008	11	0.37
October 2008	184	5.94
September 2008	317	10.57
August 2008	337	10.87
July 2008	502	16.19
June 2008	210	7.00

Interactive Photo Gallery

Our exclusive photo gallery is designed to bring online viewers a complete vivid and accurate pictorial of all your listings. We include up to 75 images with our photo gallery. Our unique side by side gallery also gives visitors the ability to view different rooms from a different angle. We don't just provide photographs of your listing; we also help you market your listing. Interaction for online visitors accomplishes one very important rule in online marketing; it keeps your visitor on your site and viewing your listing longer. Viewers can easily scroll all listing images, enlarge them, click and drag them and get a complete pictorial showing online.

We put online visitors virtually INSIDE the property!

This incredible technology is called Virtual Reality and absolutely nothing can give visitors a better, more realistic view of your listings. These breathtaking panoramas will make a dazzling first impression, and ensure your name and unique State of the Art marketing capabilities are unforgettable. Print media might have some affect in the local market but the Real Estate market is a Global market and Virtual Tours market to World.
