

We're more than ink on paper.
We're [th]ink on paper™.

WHO ARE WE?

CBN Commercial Solutions was formed in July 2015 through the merger of McAra Printing and Unicom Graphics, and operates as a division of Canadian Bank Note Company, Limited. CBN Commercial Solutions is a full service solutions provider, assisting our clients with a wide range of service that include offset and digital printing, wide format, mailing and fulfillment. We are recognized as a provider of quality services and are trusted to deliver critical large-format display, marketing, communication and operational solutions.

OUR TEAM - [THINK ON PAPER]

The Sales Team at CBN Commercial Solutions are experienced (many over 10 years) and knowledgeable. With years of experience in the industry they are well qualified to answer any questions, make suggestions, and help you create your project focusing on your goals. This could be a tight budget, garnering more attention to your brand, tight timelines. We are [think] on paper!

WHERE INK MEETS PAPER!!

Our prepress department utilizes an advanced digital work flow engineered for precision and productivity. With a range of fully equipped, current generation Mac and Windows work stations for file preflight and preparation.

Our skilled technicians ensure even the most complex designs print as you expect them to. We can build custom foil dies, varnishes and other special effects to give your print project a distinctive presence. This system provides the press operator with fast and early detection of print faults such as hickeys, ink splashes, or print defects.

THE PRESSROOM

Our climate-controlled pressroom houses an diverse array of high-capacity Heidelberg offset press technology enabling us to print on anything from onion skin to cardboard.

HEIDELBERG SPEEDMASTER® XL106-10P+UV

This powerful 10 colour perfecting press can print both sides of a 40" sheet in a single pass, making short work of long runs. Using UV inks and coatings, the XL106 can produce a wide variety of print and finishing effects. Additionally, the sheets come off the press completely dry and ready for finishing – reducing the time to you.

The UV curing of each sheet ensures bright colour and accurate reproduction of your images. CBN Commercial Solutions is the first commercial printer in Canada to install the colour Prinect Inspection Control system on our XL 106 -10P+UV press, enabling inline sheet inspection for maximum security in the printing process. This System the press operator with fast, and early detection of print faults such as hickeys, ink splashes, or print defects.

The XL 106 is also equipped with the Prinect Inpress Control system to ensure colour and registration consistency throughout the print run. With automated inspection, you can be assured that your print will look great! The XL 106 press uses UV inks that contain zero VOC's and zero Hazardous Airborne Particles – good for the environment, for you and for us!

SHORT RUN - NO PROBLEM

Our HP Indigo digital press produces High quality short run color printing. In addition, your digital print can be combined with Variable data for custom direct mail projects. The HP indigo uses a similar liquid ink and blanket transfer system that produces a product that is as close as you can get to offset print.

THE LONG AND THE SHORT OF IT!!

Banners, signs, wallpaper!! We produce a wide range of products that offer outstanding image quality and fast turnaround on our flatbed OCE Arizona 350. Ask us about items for tradeshow, sale banners, interior décor and more - printed on vinyl, metal, glass, wood and canvas.

BLING AND BUMP

Foil and Emboss - Where can you get a little extra edge? Advantage over your competition? Our specialty department has over 100 years of experience bringing a little extra pizzazz to your printed piece. In addition to foiling and embossing, we offer specialty diecuts in any shape you can imagine - circles, footballs, apples or animals. Now that is the way to stand out in the crowd.

BINDERY, MAILING & FULFILLMENT

We use the most advanced technologies to complete your project. From folding and bundling for mail to a saddlestitched/perfect bound book. You can rest assured that the project will arrive the way you envisioned.

Additionally, CBN Commercial Solutions offers the option for a customized online solution. These services include online ordering, kitting, fulfilling and warehouse management. Taking some of the work of your plate so you can focus on your business.

GREEN, GREEN, GREEN, WE LOVE THAT COLOUR

CBN Commercial Solutions continues to innovate and embrace emerging eco-friendly print technologies. Utilizing our 11kw solar array we have offset more than 54 tons of carbon to date, an offset equivalent to more than five acres of forest. CBN Commercial Solutions leads the industry through early adoption of green printing technologies such as alcohol-free printing and the use of low Volatile Organic Compound (VOC) vegetable-based inks. We have been recycling scrap paper for more than 60 years and this has been key in establishing environmental best practices in the commercial print industry. Our goal is to produce technically advanced and appealing print products with minimal environmental impact.

THE CBN COMMERCIAL SOLUTIONS ADVANTAGE

CBN Commercial Solutions is committed to being Western Canada's leading full-service offset and digital printing, binding, mailing and fulfillment partner. We provide the best print production services in the region while building long-term partnerships with our clients based on honesty, trust and accountability. We achieve and maintain this with our ongoing investment in state-of-the-art technology, superior approach to customer service, commitment to delivery schedules and our consistent top quality results.
